Fully
CUSTOMIZED STORAGE

State of the Art
INVENTORY MANAGEMENT

MASS™ Medical Storage products
can be found in hospitals both
large and small all over the world.

As a leading innovator in its field,
MASS™ constantly reinvents
designs in order to provide
clinicians with the most effective
storage units on the market.

In every hospital, in any
department, MASS™ produces a
medical storage solution that fits
the needs of its clients.

It is this intense focus on the
customer's needs that makes
MASS™ Medical Storage one of
the top manufacturers in the
industry today.

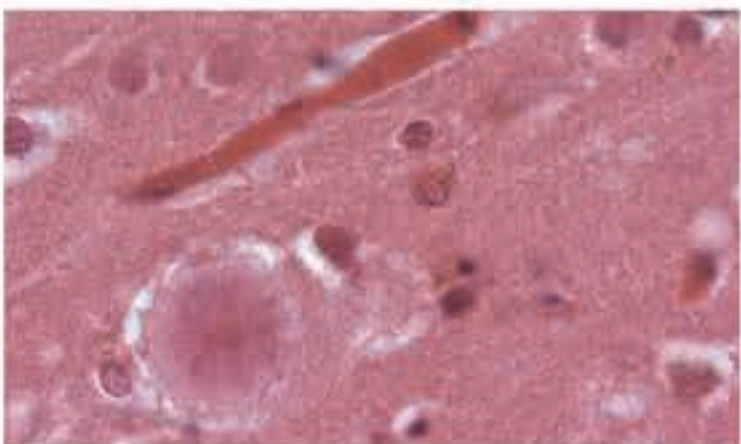

INVENTORY CONTROL

Given the wide variety of medical procedures that require specialized storage, no one storage system will work for everything. MASS™ Medical Storage's engineers have designed fully customizable, interchangeable storage to meet your anesthesia storage needs for each and every procedure.

Our proprietary Exchange System utilizes a multitude of components that can be changed quickly and easily. Wire baskets, bins, Lucent trays, drawers, and shelves uniquely combine and move to accommodate your immediate needs.

MASS™ Medical Storage's products are specifically designed with infection control in mind. With options such as medical-grade stainless steel and antimicrobial paint, our product line will help your medical facility achieve impeccable infection control.

INFECTION CONTROL

The MASS™ team closely monitors updates from governing societies such as TJC, AORN, AAMI, and more. We know that you hold your facility to the highest standard; in order to help you maintain compliance, MASS™ focuses on staying current with changes in regulations.

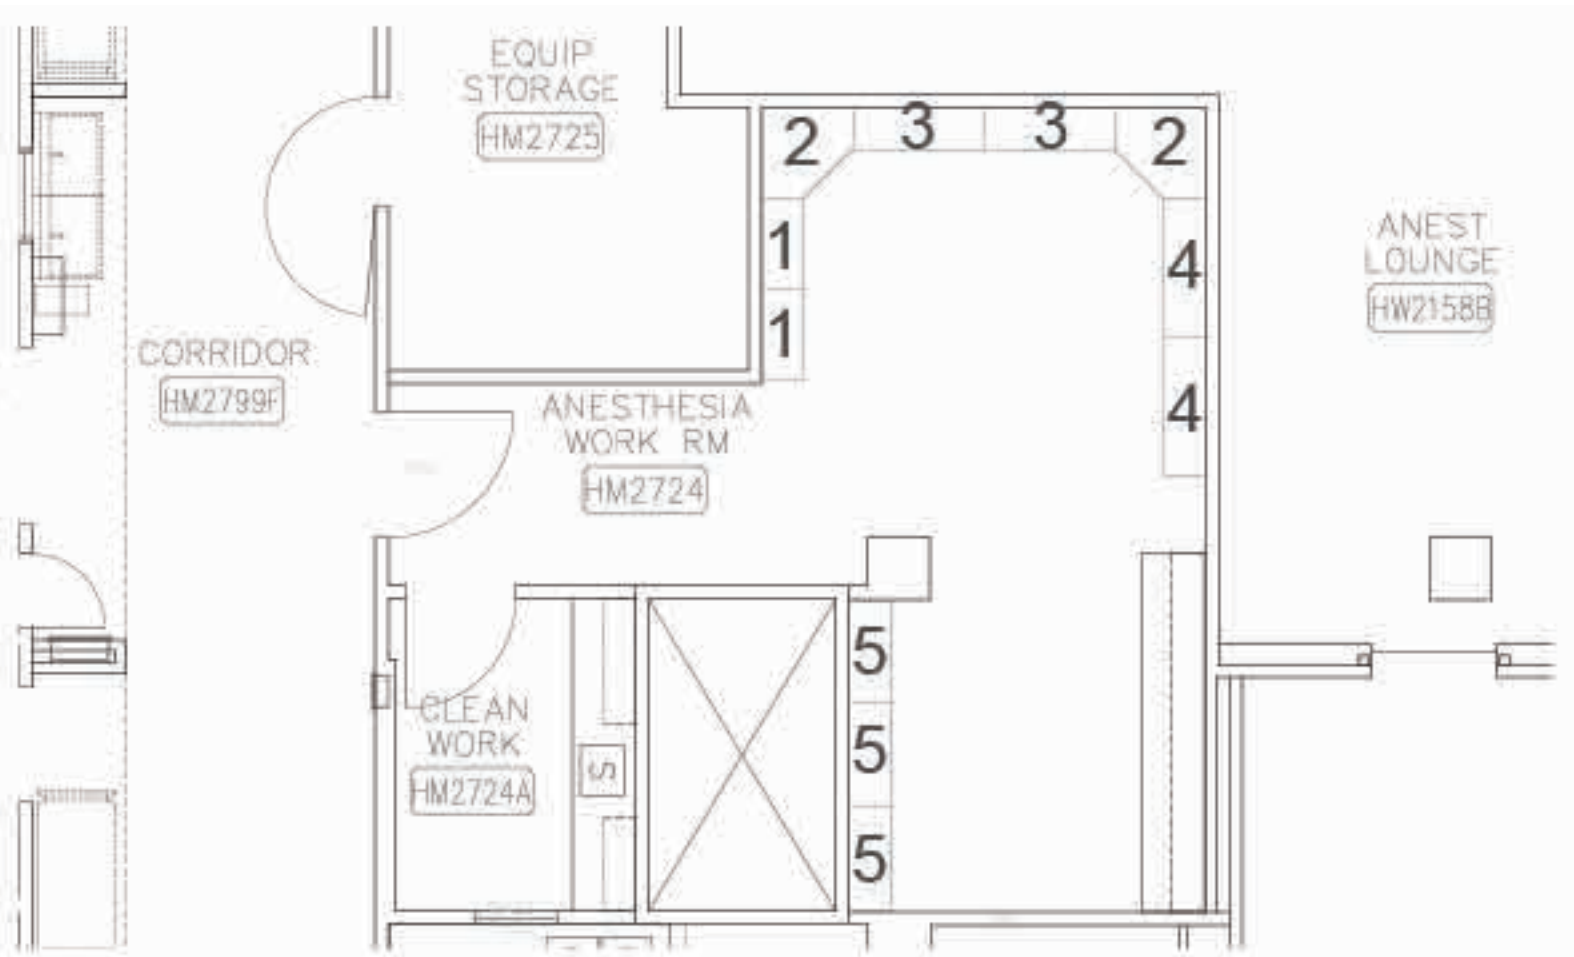

QUALITY CONSTRUCTION

Each cart is built in our MASS™ production area by experienced construction professionals. MASS Medical Storage utilizes meticulously detailed quality assurance procedures to ensure that every product meets our high standards

- Premium German casters
- Medical grade laminate
- Heavy-duty, powder coated 14 and 20 gauge steel construction.
- Non-ferrous exposed metal components and hardware

COLLABORATIVE PLANNING & CUSTOMIZED DESIGN

- MASS™ is your design and engineer partner from common spec files to fully-customized storage systems.
- Valuable expertise in infection control and standards set by The Joint Commission for medical-grade storage in many areas of medical facilities.
 - Design services at no additional cost.

- Knowledgeable and accessible design and engineering professionals.
- Efficient custom storage systems to maximize time, space, and productivity.
- Enhanced construction documents with custom CAD and Inventor product drawings.
- Standard and custom elevation options.

LUCENT™ HIGH DENSITY MODULAR STORAGE

LUCENT™

With our transparent Lucent™ High Density Modular Storage supply trays, you can customize each supply tray quickly and easily. Keep your supplies organized, streamlined, and easily accessible.

- Easily adjustable dividers for modifying the size of individual supply compartments.
- Trays are available in varying heights.
- Transparent trays provide visibility of stored supplies, increasing efficiency and productivity.
- Easy-to-use labeling system.

The Lucent™ line easily integrates into our extensive line of carts and cabinets, allowing your medical facility to customize each storage area multiple times with minimal effort.

Simply slide the Lucent™ trays in and out of the Exchange carts and cabinets, placing them wherever you need them to be in that moment. Due to their fluid design, changing your storage design is quick and efficient.

EXCHANGE CARTS

Mix and match interior components – tray, baskets, bins, shelves, and more. Easy to reconfigure for new packaging and procedures. Highly maneuverable with lightweight construction and premium casters. Available in Standard and Lucent.

SMALL CARTS

Efficiently serving your mobile storage needs, our Small Carts feature stainless steel tops for the ultimate in infection control. The interchangeable interior options provide you the ability to stock each cart with the exact supplies you need for each procedure.

FULL SIZE AND TALL CARTS

MASS™ Medical Storage manufactures carts for specialized storage of medical supplies and equipment. Our medical grade Full Size and Tall carts are built with infection control, material handling ergonomics, mobility, strength, and flexibility in mind.

TRIPLE WIDE CARTS

Our largest cart ever manufactured supports three full columns of Exchange to enable higher density storage with low frequency moving storage.

MASS™ Triple Wide Carts are the largest in the industry.

UPPERS AND LOWERS

Make use of all of the space in the Anesthesia Storage room with Upper and Lower Metal Wall cabinets and carts.

WALL CABINETS

Exchange Cabinets are ideal to easily manage inventory and reconfigure storage as the needs of the OR changes.

CASEWORK

With shelves, drawers, hanging product or pegboard, MASS™ casework can be designed to solve your storage needs. We work in laminates, power coated steel, and stainless steel.

CORNER CABINETS

Corner Cabinets can increase usable storage space by almost 30%.

STORAGE BINS

MASS Medical Storage offers bins in 4", 6", and 8" widths to keep your smaller medical supplies neatly organized and easily reachable.

WIRE BASKETS & TRAYS

For additional storage needs, consider our wire baskets and trays. Available in depths of 2", 6", and 8", these slide-out storage options increase your storage's flexibility.

DIGITAL PROXIMITY LOCKS

Eliminating the need to carry keys or remember passcodes, the digital proximity lock maximizes security and accessibility.

ELECTRONIC KEYLESS LOCK

Reduce the security risk of lost keys by choosing the electronic keyless lock option. The code is easily reset to increase the security of your medical supplies.

TAMBOUR DOOR

Our roll-up tambour door provides an excellent option for small spaces. The door easily rolls up into a separate compartment that isolates dust and debris that may cling to the back of the door.

HINGED GLASS DOOR

Offering visibility, increased durability, and security, the hinged glass door is a solid solution to your storage needs. Locking options available.
